Fabbrica d'Armi Pietro Beretta, S.p.A., the oldest industrial firm and the oldest gunmaker in the world, launches its 475th anniversary with the publication of this lavish history and celebration of a unique world of Beretta firearms. Beretta remains under the stewardship of its founding family and reigns as one of the few international brands symbolic of unsurpassed quality. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

This revised 5th Edition, now expanded to over 400 pages in a larger 8 x 11 in. format, contains over twice as much information as previous editions. Featured in this 5th Edition are hundreds of digital images for most popular makes and models, making identification much easier. The Blue Book of Airguns contains both up-to-date 2005 airguns pricing information and detailed technical data on both todays high tech offerings and older, discontinued models. This includes domestic, foreign, and military airguns, modern commemoratives, and major trademark antiques! Also included are some valuable editorials by Dr. Robert Beeman and noted airgun journalist Tom Gaylord, as well as an extensive pictorial glossary. The 5th Edition Blue Book of Airguns contains more useful and up-to-date information than any other single airgun publication.

Pollinators--insects, birds, bats, and other animals that carry pollen from the male to the female parts of flowers for plant reproduction--are an essential part of natural and agricultural ecosystems throughout North America. For example, most fruit, vegetable, and seed crops and some crops that provide fiber, drugs, and fuel depend on animals for pollination. This report provides evidence for the decline of some pollinator species in North America, including America's most important managed pollinator, the honey bee, as well as some butterflies, bats, and hummingbirds. For most managed and wild pollinator species, however, population trends have not been assessed because populations have not been monitored over time. In addition, for wild species with demonstrated declines, it is often difficult to determine the causes or consequences of their decline. This report outlines priorities for research and monitoring that are needed to improve information on the status of pollinators and establishes a framework for conservation and restoration of pollinator species and communities.

This manual is organized as a reference for snipers and leads the trainer through the material needed to conduct sniper training. Subjects include equipment, weapon capabilities, fundamentals of marksmanship and ballistics, field skills, mission planning, and skill sustainment.

Suppressors are the hottest new gear on many gun ranges. Why? And how can you safely, lawfully and knowledgeably join your gun club cohorts in owning and enjoying this new shooting accessory? The next time you go to the gun club, if there isn't a suppressor present, there will be talk of them. Skip the hype and get the facts from industry expert Patrick Sweeney, with Gun Digest Book of Suppressors.

Jack Holmes is suffering from unrequited love. It doesn't look as if there will ever be anyone else he falls for: the other men he takes to bed never stay for long. Jack's friend Will Wright comes from old stock, has aspirations to be a writer and, like Jack, works on the Northern Review. Jack will introduce Will to the beautiful, brittle young woman he will marry, but is discreet about his own adventures in love - for this is sixties New York, literary and intense, before gay liberation; a concoction of old society, bohemians rich and poor, sleek European immigrants and transplanted Midwesterners. Against this charged backdrop, the different lives of Jack and Will intertwine, and as their loves come and go, they will always be, at the very least, friends.

Cut through the noise with The Suppressor Handbook from Gun Digest! In The Suppressor Handbook, author and gunsmithing guru Patrick Sweeney quickly brings you up to speed with "just the facts" that you need to know about suppressors. Understand "the big four" of silencers: Cost: How much should you pay, and what unexpected costs could you run into? Composition: How are they made, and why should you care? Caliber: Figure out what you need, especially if you might want to use your suppressor on more than one gun. Connection: Get pros and cons of the various installation methods from an authority on the subject. Use of suppressors is one of the most popular and fastest growing segments in the firearms market today. It is also a subject rife with mystery, urban myth and just plain wrong information. The Suppressor Handbook cuts through the noise and gives you: Expert advice to select and use suppressors on rifles and handguns. The facts you need to attach, use and maintain your new suppressor. The basics of matching the right suppressor with the correct ammunition.

Sixteen-year-old twins Harry and Barry stumble across a gateway to another universe, where a distortion in time and space causes a dramatic change in their competitive relationship.

T Bone Burnett is a unique, astonishingly prolific music producer, singer-songwriter, guitarist, and soundtrack visionary. Renowned as a studio maven with a Midas touch, Burnett is known for lifting artists to their greatest heights, as he did with Raising Sand, the multiple Grammy Award-winning album by Robert Plant and Alison Krauss, as well as acclaimed albums by Los Lobos, the Wallflowers, B. B. King, and Elvis Costello. Burnett virtually invented "Americana" with his hugely successful roots-based soundtrack for the Coen Brothers film, O Brother, Where Art Thou? Outspoken in his contempt for the entertainment industry, Burnett has nevertheless received many of its highest honors, including Grammy Awards and an Academy Award. T Bone Burnett offers the first critical appreciation of Burnett's wide-ranging contributions to American music, his passionate advocacy for analog sound, and the striking contradictions that define his maverick artistry. Lloyd Sachs highlights all the important aspects of Burnett's musical pursuits, from his early days as a member of Bob Dylan's Rolling Thunder Revue and his collaboration with the playwright Sam Shepard to the music he recently composed for the TV shows Nashville and True Detective and his production of the all-star album Lost on the River: The New Basement Tapes. Sachs also underscores Burnett's brilliance as a singer-songwriter in his own right. Going well beyond the labels "legendary" or "visionary" that usually accompany his name, T Bone Burnett reveals how this consummate music maker has exerted a powerful influence on American music and culture across four decades.

A resource with two hundred color photographs includes complete up-to-date information on new products, specifications, and prices for thousands of firearms and related equipment, and offers feature articles written by experts and comprehensive ballistics tables.

Rediscover the legendary names of suppressed scientific revolution-remarkable lives astounding discoveries, and incredible inventions which would have produced a world of wonder. How did the aura research of Baron Karl von Reichenbach prove the vitalistic theory and frighten the greatest minds of Germany? How did the physiophone and wireless of Antonio Meucci predate both Bell and Marconi by decades? How did the geoaetheric engines of Nikola Tesla threaten the establishment of a fuel-dependent America? Why did the Air Force initially fund the gravitational warp research and warp-cloaking devices of T Townsend Brown and then reject it? Each chapter is a biographic treasure. Ours is a world living hundreds of years behind its intended stage of development. Complete knowledge of this loss is the key to recapturing this wonder technology.

Timeless information in an easy-to-use format with a new foreword added. Popular and little-known methods explained. Includes useful weights and measures charts.

Covering the full life span of the project, from siting issues through specific design features to maintenance of the property and equipment, this is a comprehensive guide to designing, planning and building a solar house. The author uses his experience of living in a solar house to inform the reader of the technology and practices needed for the design, operation and maintenance of the solar home. Each of the technologies of the house, such as space heating and cooling, domestic hot water and electric power technologies, are critiqued from the point of view of the owner/resident, with the author using his thirty years experience of living in a solar home. This provides home owners who are thinking of going solar with first hand evidence of best practice, and provides the architect and designer with the knowledge of how to best satisfy their clients needs.
