NEW YORK TIMES BESTSELLER • The “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies.

Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. BONUS: This edition contains a new afterword and a *The Other Wes Moore* discussion guide.

In *The City on the Other Side*, a young girl stumbles into a pitched war between two fairy kingdoms, and the fate of San Francisco itself hangs in the balance! Sheltered within her high-society world, Isabel plays the part of a perfectly proper little girl—she's quiet, well-behaved, and she keeps her dresses spotlessly clean. She's certainly not the kind of girl who goes on adventures. But that all changes when Isabel breaches an invisible barrier and steps into another world. She discovers a city not unlike her own, but magical and dangerous. Here, war rages between the fairies of the Seelie and Unseelie Courts. Only Isabel, with the help of a magical necklace and a few new friends, stands a chance of ending the war before it destroys the fairy world, and her own. From Mairghread Scott and Robin Robinson comes a colorful fantasy graphic novel set in early twentieth

century San Francisco.

Alfred Kubin (1877-1959) was one of the major graphic artists of the 20th century who was widely known for his illustrations of writers of the fantastic such as Balzac, E. I. A. Hoffmann, Gustav Meyrink and Edgar Allan Poe. In his combination of the darkly decadent, the fantastic and the grotesque, in his evocations of dream and nightmare, his creation of an atmosphere of mystery and fear he resembles Mervyn Peake. *The Other Side* tells of a dream kingdom which becomes a nightmare, of a journey to Pearl, a mysterious city created deep in Asia, which is also a journey to the depths of the subconscious. Or as Kubin himself called it, 'a sort of Baedeker for those lands which are half known to us'.

The New York Times–bestselling author of *Unsinkable* “recounts the disaster from the vantage point of nearby vessels” (Publishers Weekly). A few minutes before midnight on April 14, 1912, the “unsinkable” RMS Titanic, on her maiden voyage to New York, struck an iceberg. Less than three hours later, she lay at the bottom of the Atlantic Ocean. While the world has remained fascinated by the tragedy, the drama of those fateful hours was not only played out aboard the doomed liner. It also took place on the decks of two other ships, one fifty-eight miles distant from the sinking Titanic, the other barely ten miles away. The masters of the steamships *Carpathia* and *Californian*, Capt. Arthur Rostron and Capt. Stanley Lord, were informed within minutes of each other that their vessels had picked up the distress signals of a sinking ship. Their actions in the hours and days that followed would become the stuff of legend, as one would choose to take his ship into dangerous waters to answer the call for help, while the other would decide that the hazard to himself and his command was too great to risk responding. After years of research, Daniel Allen Butler now

tells this incredible story, moving from ship to ship on the icy waters of the North Atlantic—in real time—to recount how hundreds of people could have been rescued, but in the end, only a few outside of the meager lifeboats were saved. He then looks at the US Senate investigation in Washington, and ultimately, the British Board of Trade inquiry in London, where the actions of each captain are probed, questioned, and judged, until the truth of what actually happened aboard the Titanic, the Carpathia, and the Californian is revealed. “Powerful . . . very, very well-done.” —New York Times–bestselling author Clive Cussler

"He has spent nearly three decades studying, learning from, crusading for, and thinking about hunter-gatherers, who survive at the margins of the vast, fertile lands occupied by farming peoples and their descendants, now the great majority of the world's population. In material terms, the hunters have been all but vanquished, yet in this profound and passionate book, Brody utterly dispels the notion that theirs is a lesser way of life."--Jacket.

The Other Side of Thirty is the story of Ani Spencer, a feisty, passionate, 30-something architect on a quest. While professionally successful, Ani feels like the “traditional” route to female happiness (marriage, children, etc.) is rapidly passing her by. As a self-proclaimed modern-day feminist and independent woman, Ani is mortified that she even cares about this issue. But to her chagrin, try as she might (and she tries!), Ani just can't seem to push the issue out of her mind. Uninspired by the current plethora of books and TV shows depicting the ups and downs of the modern single female in witty, lighthearted tones, Ani decides to take matters into her own hands. The Other Side of Thirty chronicles Ani's efforts to ride the rapids of single life in the 21st century and figure out how to move forward and address head-on the issues that tug at her on a daily basis: dating, marriage, body image, self-confidence, careers and personal finances, and last but not least, building a life rich with simplicity, creativity, and small joys. Ani's journey is told in a unique format; the chapters in The Other Side of Thirty alternate between Ani's thinking on these key subjects and what Ani refers to as “d.i.t.l.s.”, copies of email correspondences that give the reader a chance to see what was going on in her life at the time these thoughts were written down. While Ani starts off thinking her problem is being single in her 30's, she eventually comes to recognize that the root issue with which she is grappling is something much broader than that. As a result readers of all types—singles, women, and none of the above—will find wisdom and humor in Ani's tale about trying to move forward in life.

The presence of peace is more than the absence of conflict. Analyses and evaluations of the state of the international security environment often focus solely on the most concerning developments and tend to fall back on various conflict-centric metrics when providing assessments of a given security landscape. This chapter, entitled “The Other Side of the Security Coin” investigates a number of positive socioeconomic trends occurring on a global level and how they can contribute to sustainable peace in the future. Improving citizens' access to socioeconomic opportunities and livelihood-enhancing goods and services is a key factor in increasing the stake that citizens hold in the state of peace in their communities. Fitting within global trends such as the rise of the platform economy and social media, the role of technological and developmental processes improving individual empowerment will become more important for security and defense organizations in the near future. As to how we can leverage the dramatic changes ongoing throughout the world to better suit our security objectives remains yet to be seen. This study provides a brief overview of these trends and identifies the options for security and defense organizations to remain on top of them. This study is part of the 2016-2017 HCSS StratMon.

One common attribute we all share as humans is the fact that whenever there is an important future event, we always make necessary preparations in anticipation of an outcome from the event. We do this with childbirth, graduation from school, marriage, vacation, and death. But when it comes to the second visit of Jesus Christ leading to the End of the Age, we seem to care less about the need for some serious preparations. Before death, we will all come to a point in life when we subconsciously without notice start to briefly analyze our path; where we came from, where we are, and where we honestly think we are going after death. After this unprecedented brief moment, our next step is largely determined by the analysis obtained from the pause. That you accepted Jesus Christ as the son of God is not enough to save you from hell; you must repent and live by God's law to enter His Paradise in Heaven. Anybody can believe in Jesus Christ; but not everybody can live for Jesus Christ. God made you for a specific unique supernatural divine purpose beyond your imaginable dreams. This book will guide you, restore you, energize you, and move you to that place where you seriously start to prepare to have your salvation completely sealed through him as you successfully live to please God through Jesus Christ. This book is a sequel to “Face to Face Meetings with Jesus Christ”.

Truthout's Progressive Pick of the Week Ralph Nader's 10 Books to Provoke Conversation in 2014 Every year since 1976, Project Censored, our nation's oldest news-monitoring group—a university-wide project at Sonoma State University founded by Carl Jensen, directed for many years by Peter Phillips, and now under the leadership of Mickey Huff—has produced a Top-25 list of underreported news stories and a book, Censored, dedicated to the stories that ought to be top features on the nightly news, but that are missing because of media bias and self-censorship. Seven Stories Press has been publishing this yearbook since 1994, featuring the top stories listed democratically in order of importance according to an international panel of judges. Beyond the Top-25 stories, additional chapters delve further into timely media topics: The Censored News and Media Analysis section provides annual updates on Junk Food News and News Abuse, Censored Deja Vu, signs of hope in the alternative and news media, and the state of media bias and alternative coverage around the world. In the Truth Emergency section, scholars and journalists take a critical look at the US/NATO military-industrial-media empire. And in the Project Censored International section, the meaning of media democracy worldwide is explored in close association with Project Censored affiliates in universities and at media organizations all over the world. A perennial favorite of book-sellers, teachers, and readers everywhere, Censored is one of the strongest lifelines of our current collective desire to get the news we citizens need—despite what Big Media tells us.

“I couldn't stop thinking about the story's incredible twist...like no crime novel I've ever read.” —James Patterson For fans of Matt Haig and Anthony Horowitz, an “intriguing and thought-provoking” (Liv Constantine, author of The Last Mrs. Parrish) novel in which the lives of a disgraced police officer, a prolific author, and an upstanding citizen are inextricably bound together by a series of mysterious deaths. The Other Side of Night begins with a man named David Asha writing about his biggest regret: his sudden separation from his son, Elliot. In his grief, David tells a story. Next, we step into the life of Harriet Kealty, a police officer trying to clear her name after a lapse of judgment. She discovers a curious inscription in a secondhand book—a plea: Help me, he's trying to kill me. Who wrote this note? Who is “he”? This note leads Harri to David Asha, who was last seen stepping off a cliff. Police suspect he couldn't cope after his wife's sudden death. Still, why would this man jump and leave behind his young son? Quickly, Harri's attention zeroes in on a person she knows all too well. Ben Elmys: once the love of her life. A surrogate father to Elliot Asha and trusted friend to the Ashas. Ben may also be a murderer. The Other Side of Night is a thought-provoking, moving “head-spinner of a novel” (John Connolly) with intriguing narratives and plot swerves that will leave you reeling. By the end, you'll be shaken as each piece slots satisfyingly into place. In Western culture, we have become addicted to positivity. We try to eradicate pain through medication and by insulating ourselves and our children from risk, even though we are the safest generation that ever lived, and often view difficulty as a personal failure. Yet in his research renowned social psychologist Brock Bastian has found that hardship and sadness are neither antithetical to pleasure nor incidental: they are a necessary ingredient for happiness. Drawing on psychology, neuroscience, and internationally acclaimed findings from Bastian's own lab, The Other Side of Happiness encourages us to take a more fearless approach to living that acknowledges the value of pain in our lives. As Bastian shows us, the most thrilling moments of our lives are usually balanced on a knife edge between pleasure and pain, whether it is finding your true love, holding your newborn for the first time, finishing a marathon, or even taking a dip in an icy sea. This is because hardship quite literally increases our capacity for happiness, making us stronger, more resilient, and more connected to those around us. Backed by rigorous scientific research, Brock Bastian shows that, without some pain, we have no real way to achieve and appreciate happiness.
